ABOUT THIS PLAN

The ADU 1200/1670 is a compact yet thoughtfully designed accessory dwelling unit at the 1200 sq ft foot print with the second floor as a 470 sq ft storage, if not for used for an ADU then the 1670 can be used to cretae a fantastic 2 story home in a number of ways. This is perfect for guest houses, rental income, or multi-generational living. This efficient floor plan maximizes livable space while maintaining affordability and ease of construction. Ideal for properties seeking to add value and flexibility, it combines smart layouts with the warmth of log home construction. Customize it to suit your needs—whether as a standalone residence, income-producing rental, or family retreat. Built with quality craftsmanship and designed for modern living, the ADU 1200/1670 delivers practical elegance in a smaller footprint.

Main Floor — 1,200 sq ft
