ABOUT THIS PLAN

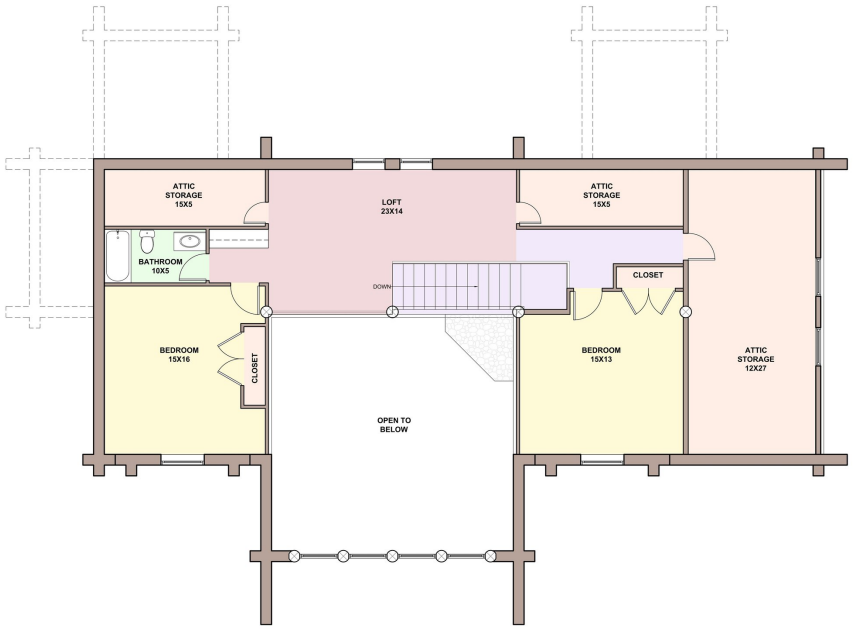

The Wapati by Sierra Log & Timber is a grand 4,684 sq ft log home with a warm, inviting spirit and room to grow. Ideal for families who want space to gather and spread out, it features a generous main level of 2,483 sq ft anchored by a great room for fireside evenings and a kitchen ready for big breakfasts or holiday feasts. The primary bedroom offers privacy and comfort, while two additional bedrooms give everyone their own retreat. Upstairs, a 1,223 sq ft loft opens up possibilities for a home office, studio, or extra sleeping space. The 978 sq ft basement is a blank canvas for a workshop, rec room, or future expansion. Whether as a year-round residence, mountain retreat, or legacy home for generations, the Wapati brings together craftsmanship and flexibility, with options to tailor the details to your vision.
