ABOUT THIS PLAN

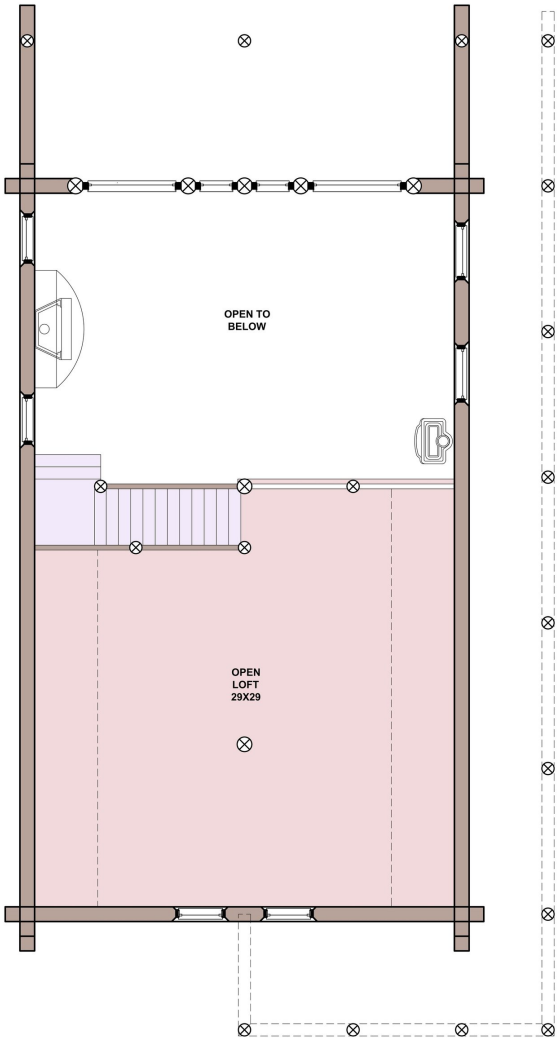

The Chalet by Sierra Log & Timber is a welcoming 3,542 sq ft log home with a classic spirit and room to grow. Ideal for couples or small families dreaming of full-time mountain living, it offers a spacious 1,500 sq ft main level with an open great room for gathering around the fire, a practical kitchen for everyday meals, and a comfortable primary bedroom. The second bedroom is perfect for guests or a child's room. Upstairs, a 542 sq ft loft gives you flexible space for a home office, studio, or cozy reading nook. Downstairs, the 1,500 sq ft basement is a blank canvas for a workshop, rec room, or extra storage. Whether as a year-round residence, a retreat for family getaways, or a base for outdoor adventures, the Chalet's handcrafted details and adaptable layout make it easy to imagine your own story here. Customization is always welcome.
