ABOUT THIS PLAN

The Elkton by Sierra Log & Timber is a grand 5,417 sq ft log home with a warm, inviting spirit and room for everyone to gather. Ideal for growing families or those who love to host, it offers four bedrooms and four and a half baths across two spacious stories. The main level's 3,127 sq ft centers around a generous great room, where timber beams and natural light set the stage for relaxed evenings and lively celebrations. The kitchen is designed for real cooking and conversation, while the primary bedroom provides a private retreat at day's end. Upstairs, the 2,290 sq ft loft is flexible enough for a home office, studio, or extra sleeping space for guests. Whether as a year-round residence, a mountain retreat, or a legacy home for generations, the Elkton can be tailored to fit your vision and lifestyle.
